

CERTIFICATE of Completion

This is to certify that

Alaa Mohammad Tayel Gharibeh

Has successfully passed the Automation and AI Agent Training Course
on n8n Platform, held from September 7th to September 24th, 2025, with a total
duration of 55 training hours.

The participant explored the fundamentals of Automation and AI Agents using n8n,
including workflow automation, API integrations, and intelligent agent design.
Through hands-on training, the participant developed 10 practical automation use
cases applied to real-world scenarios and gained valuable insights into best
practices for building scalable automated systems.

In addition, the participant enhanced their expertise in prompt engineering,
problem-solving, and professional communication, enabling them to effectively
design, document, and present automation
